Not applicable.

1.35. Section 508 Compliance

If applicable, Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services. The EIT standard can be found at <http://www.section508.gov>.

1.36. Data Universal Numbering System (DUNS) Number

62-519-4865.

1.37. Registration in Central Contractor Registration (CCR) Database

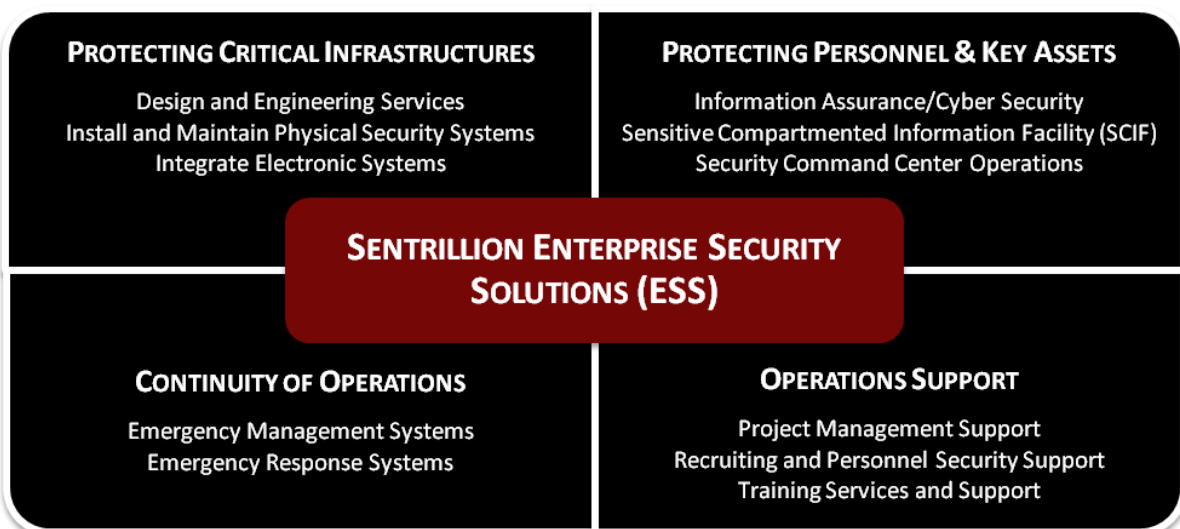

Contractor is registered in the Central Contractor Registration (CCR) Database, available at <http://www.ccr.gov>.

## 2. Sentrillion's Corporate Overview

Sentrillion Corporation, a Lenel, Vicon and Pelco VAR headquartered in Reston, Virginia, focuses on the implementation of total security management solutions and we have designed, installed, and maintained hundreds of integrated security systems for customers across the United States. For more than 35 years, our solutions have helped protect our customers against crime, theft, and any unauthorized entry to restricted areas. We have approximately 200 employees located nationwide with offices in Reston, VA and Sierra Vista, AZ, and are proud to be one of the country's leading security systems integrators. Our employees are committed to delivering the highest quality professional services to our clients, as cost effectively as possible. Our quality management system (QMS) governs how we design, develop, deliver and maintain the enterprise security solutions we provide to our customers. Sentrillion's QMS is ISO 9001:2008 certified and appraised at a Capability Maturity Model Integrated (CMMI) Level 2 Maturity. Sentrillion employs experienced and certified professionals including

- Program Management Professionals (PMP)
- Physical Security Professionals (ASIS, CPP, PSP)
- Microsoft Certified Systems Engineers (MCSE)

The combination of skilled professionals and innovative solutions has established Sentrillion as a leading provider of integrated cost-effective state of the art security services and solutions. Our enterprise security solutions (ESS) are a combination of services that protect critical infrastructures, personnel, and key assets; ensure continuity of operations (COOP); and provide operational support to our customers. As shown in the figure below, convergence of these services supports our customers throughout the full ESS lifecycle. Sentrillion's communication planning process is an essential component of project success; it ensures that we define the manner in which we collaborate with our clients, partners, and alliances throughout the project lifecycle. Our experience has taught us that the success of any project is dependent on a thorough understanding of the client's needs and requirements. We have learned that by collaborating with our clients, partners, and alliances we can reach a mutual understanding about specific solution requests.

### 3. Sentrillion's Information Technology and Security and Protection Offerings

SIN 334290 (Formerly 246-1000): Security and Detection Systems - SUBJECT TO COOPERATIVE PURCHASING - Includes security and detection systems and devices, such as gas detectors, pressure level monitoring, patient/detainee monitoring systems, etc.

**\*\* NOTE \*\***

***Information Technology Professional Services (SIN 54151S) are approved by GSA and temporarily listed on this contract under SIN 334290 and SIN 541330L until Phase 3 of the Multiple Award Schedule consolidation is completed. The following serve as the Information Technology Professional Services offerings:***

*SIN 54151S (Formerly 132-51): Information Technology Professional Services - SUBJECT TO COOPERATIVE PURCHASING - IT Professional Services and/or labor categories for database planning and design; systems analysis, integration, and design; programming, conversion and implementation support; network services, data/records management, and testing.*

SIN 334290L (Formerly 246-35(1)): Physical Access Control Systems (PACS) - Legacy SIN - SUBJECT TO COOPERATIVE PURCHASING - Includes physical access control systems (PACS), such as card-controlled access, biometrics, security barriers, etc.

SIN 334512 (Formerly (246-41(1))): Total Solution Support Products for Facilities Management Systems - SUBJECT TO COOPERATIVE PURCHASING - Includes products to support facilities management systems, such as repair parts, surveillance systems, security functions, energy functions, building comfort systems, etc.

SIN 541330L (Formerly 246-60(1)): Security System Integration, Design, Management, and Life Cycle Support - SUBJECT TO COOPERATIVE PURCHASING - Includes services involving the security integration/management discipline, which supports security products and systems throughout their lifecycle. Services may include, but are not limited to: testing, production, fielding, process improvement, disposal, etc.

**\*\* NOTE \*\***

***Information Technology Professional Services (SIN 54151S) are approved by GSA and temporarily listed on this contract under SIN 334290 and SIN 541330L until Phase 3 of the Multiple Award Schedule consolidation is completed. The following serve as the Information Technology Professional Services offerings:***

*SIN 54151S (Formerly 132-51): Information Technology Professional Services - SUBJECT TO COOPERATIVE PURCHASING - IT Professional Services and/or labor categories for database planning and design; systems analysis, integration, and*

*design; programming, conversion and implementation support; network services, data/records management, and testing.*

SIN OLM: Order-Level Materials (OLM) – OLMs are supplies and/or services acquired in direct support of an individual task or delivery order placed against a Schedule contract or BPA. OLM pricing is not established at the Schedule or BPA level, but at the order level. Since OLMs are identified and acquired at the order level, the ordering contracting officer (OCO) is responsible for making a fair and reasonable price determination for all OLMs. OLMs are procured under a special ordering procedure that simplifies the process for acquiring supplies and services necessary to support individual task or delivery orders placed against a Schedule contract or BPA. Using this new procedure, ancillary supplies and services not known at the time of the Schedule award may be included and priced at the order level.

OLM SIN-Level Requirements/Ordering Instructions:

OLMs are:

- Purchased under the authority of the FSS Program
- Unknown until an order is placed
- Defined and priced at the ordering activity level in accordance with GSAR clause 552.238-115 Special Ordering Procedures for the Acquisition of Order-Level Materials. (Price analysis for OLMs is not conducted when awarding the FSS contract or FSS BPA; therefore, GSAR 538.270 and 538.271 do not apply to OLMs)
- Only authorized for use in direct support of another awarded SIN.
- Only authorized for inclusion at the order level under a Time-and-Materials (T&M) or Labor-Hour (LH) Contract Line Item Number (CLIN)
- Subject to a Not To Exceed (NTE) ceiling price

OLMs are not:

- "Open Market Items."
- Items awarded under ancillary supplies/services or other direct cost (ODC) SINs (these items are defined, priced, and awarded at the FSS contract level)

OLM Pricing:

- Prices for items provided under the Order-Level Materials SIN must be inclusive of the Industrial Funding Fee (IFF).
- The value of OLMs in a task or delivery order, or the cumulative value of OLMs in orders against an FSS BPA awarded under an FSS contract, cannot exceed 33.33%.

NOTE: When used in conjunction with a Cooperative Purchasing eligible SIN, this SIN is Cooperative Purchasing Eligible.

## **4. Terms and Conditions**

GSA multiple award schedule contracts are awarded in accordance with the provisions of the Federal Acquisition Regulation Part 12 – Acquisition of Commercial Items. To the utmost possible ability, GSA multiple award schedule contracts include only those clauses and terms and conditions, either required to put into practice provisions of law or executive orders that are vital to their specific requirements (i.e. security, key personnel, etc.), provided they do not conflict with the terms and conditions of the contract. These provisions, when solicited, must be included in the individual task order, and any costs required to comply with the provision(s) will be included in the task order proposal price estimate, unless otherwise prohibited by law. The terms and conditions of Sentrillion's Schedule 84 contract are current through December 12, 2024.

## 5.2 Security and Protection Labor Category Descriptions – Security Services

### 5.2.1 Administrative Assistant – Level I

**Position Description:** Responsible for preparing correspondence, reports, and presentation material; prepares agenda, notices, minutes, maintains calendars, schedules, contacts and organizes meetings, travel and department activities, answers telephones, organizes teleconferences, schedules meetings, takes and distributes meeting minutes/notes; prepares reports, screen calls, and handles requests in an appropriate manner, performs other clerical duties as assigned.

**Minimum Experience:** 0-1 year's experience in a related field.

**Minimum Education Requirements:** High School diploma or a level of experience commensurate with the rigors of a diploma.

### 5.2.2 Administrative Assistant – Level II

**Position Description:** Responsible for preparing correspondence, reports, and presentation material; prepares agenda, notices, minutes, maintains calendars, schedules, contacts and organizes meetings, travel and department activities, answers telephones, organizes teleconferences, schedules meetings, takes and distributes meeting minutes/notes; prepares reports, screen calls, and handles requests in an appropriate manner, performs other clerical duties as assigned.

**Minimum Experience:** 1-3 years' experience in a related field.

**Minimum Education Requirements:** High School diploma or a level of experience commensurate with the rigors of a diploma.

#### 5.2.3 Administrative Assistant – Level III

**Position Description:** Responsible for preparing correspondence, reports, and presentation material; prepares agenda, notices, minutes, maintains calendars, schedules, contacts and organizes meetings, travel and department activities, answers telephones, organizes teleconferences, schedules meetings, takes and distributes meeting minutes/notes; prepares reports, screen calls, and handles requests in an appropriate manner, performs other clerical duties as assigned.

**Minimum Experience:** 3-5 years' experience in a related field.

**Minimum Education Requirements:** High School diploma or a level of experience commensurate with the rigors of a diploma.

#### 5.2.4 CAD Specialist – Level I

**Position Description:** Responsible for constructing detailed drawings and consulting/coordinating with all appropriate field employees and engineering staff regarding all aspects of drawings, design plans, site survey documentation, symbol standards and installation. Prepares customer and company with all applicable deliverables.

**Minimum Experience:** 1-3 years' experience in a related field.

**Minimum Education Requirements:** High school diploma or a level of experience commensurate with the rigors of a diploma.

#### 5.2.5 CAD Specialist – Level II

**Position Description:** Responsible for constructing detailed drawings and consulting/coordinating with all appropriate field employees and engineering staff regarding all aspects of drawings, design plans, site survey documentation, symbol standards and installation. Prepares customer and company with all applicable deliverables.

**Minimum Experience:** 3-5 years' experience in a related field.

**Minimum Education Requirements:** High school diploma or a level of experience commensurate with the rigors of a diploma.

#### 5.2.6 CAD Specialist – Level III

**Position Description:** Responsible for constructing detailed drawings and consulting/coordinating with all appropriate field employees and engineering staff regarding all aspects of drawings, design plans, site survey documentation, symbol standards and installation. Prepares customer and company with all applicable deliverables.

**Minimum Experience:** 5-8 years' experience in a related field.

**Minimum Education Requirements:** High school diploma or a level of experience commensurate with the rigors of a diploma.

#### 5.2.7 Engineering Subject Matter Expert – Level I

**Position Description:** Designs, develops and recommends security system solutions for law enforcement, homeland defense, emergency preparedness and security clients. Provides technical engineering services for the support and installation of security systems and solutions. Interfaces with client in the strategic design process to translate security and business requirements into technical designs. Configures and validates security systems; tests security products and systems to detect security weakness. Duties include analysis of mission requirements, secure architecture, design, organizational and vulnerability assessments, intelligence and threat analysis. Performs duties on tasks that require expertise in the following: physical security analysis of facilities, emergency preparedness, security assessment/risk design analysis and continuity of operations, planning and disaster recovery.

**Minimum Experience:** 10 years' experience in a related field.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

#### 5.2.8 Field Operations Supervisor – Level II

**Position Description:** Responsible for the oversight of the installation workforce. Duties include the planning, logistics, scheduling, and oversight of all installation tasks.

**Minimum Experience:** 3-5 years' experience in a related field.

**Minimum Education Requirements:** Bachelor's Degree or experience Commensurate with rigors of a degree.

#### 5.2.9 Instructor – Level II

**Position Description:** Responsible for providing training and instruction support activities including teaching customized training courses in classroom field/live settings, identifying training and development needs, developing training programs, conducting training appraisals, devising lesson plans, developing curriculum, producing training materials for in-service courses as necessary, monitoring and reviewing the progress of students, maintaining records and solving specific training problems.

**Minimum Experience:** 3-5 years' experience in a related field.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of a degree.

#### 5.2.10 Instructor – Level III

**Position Description:** Responsible for providing training and instruction support activities including teaching customized training courses in classroom field/live settings, identifying training and development needs, developing training programs, conducting training appraisals, devising lesson plans, developing curriculum, producing training materials for in-service courses as necessary, monitoring and reviewing the progress of students, maintaining records and solving specific training problems.

**Minimum Experience:** 5-8 years' experience in a related field.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of a degree.

#### 5.2.11 Maintenance Operations Manager – Level I

**Position Description:** Responsible for providing management and oversight of all security systems operations activities, including computer and telecommunications/communications operations, data entry and control, operations support, operating systems programming, system security policy procedures, and/or web strategy and operations. Provides input to policy level discussions regarding standards and budget constraints.

**Minimum Experience:** 1-3 years' management experience in a related field.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of a degree.

#### 5.2.12 Maintenance Operations Manager – Level II

**Position Description:** Responsible for providing management and oversight of all security systems operations activities, including computer and telecommunications/communications operations, data entry and control, operations support, operating systems programming, system security policy procedures, and/or web strategy and operations. Provides input to policy level discussions regarding standards and budget constraints.

**Minimum Experience:** 3-5 years' management experience in a related field.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of a degree.

#### 5.2.13 Maintenance Operations Subject Matter Expert – Level I

**Position Description:** Provides technical and management expertise in installation, warehouse, help desk, and maintenance operations. Consults with the management of logistical, operations, and administrative functions. Interfaces with clients to coordinate work, resolve issues, and ensure satisfaction; provides operations and maintenance analysis and reports supplement internal progress reviews, and supports integrated project teams. Provides consultative expertise relating to statutes and regulations relating to the logistics and maintenance operations, including without limitation, OSHA, the Department of Labor regulations, and the Department of Transportation regulations.

**Minimum Experience:** 10 years' experience in a related field.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

#### 5.2.14 Maintenance Technician – Level II

**Position Description:** Responsible for assisting in the planning, designing, and implementing of communications networks, including, but not limited to, computers, data networks, digital video recorders and cameras, power supplies and fiber optics. Assists in the

review/assessment of user needs and in the evaluation and selection of equipment.  
Performs feasibility studies for small projects.

**Minimum Experience:** 3-5 years' experience in a related field.

**Minimum Education Requirements:** High school diploma or a level of experience commensurate with the rigors of a diploma.

#### 5.2.15 Physical Security Consultant – Level III

**Position Description:** Recommends security system solutions for law enforcement, homeland defense, emergency preparedness and translate security and business requirements into feasible solutions. Duties include analysis of mission requirements, secure architecture design, organizational and vulnerability assessments, intelligence and threat analysis. Performs duties on tasks that require expertise in the following: physical security analysis of facilities, emergency preparedness, security assessment/risk design analysis and continuity of operations, planning and disaster recovery.

**Minimum Experience:** 10 years' experience in a security-related field.

**Minimum Education Requirements:** Master's Degree or a level of experience commensurate with the rigors of an advanced degree.

#### 5.2.16 Planning (Coordination) Technician – Level I

**Position Description:** Maintains inventory control of warehoused products and materials. Responsible for conducting inventories of incoming and outgoing projects. Prepares materials for receipt and field distribution, including related documentation. Tests hardware upon receipt and prior to field distribution.

**Minimum Experience:** 0-3 years' experience in a related field.

**Minimum Education Requirements:** High School diploma or a level of experience commensurate with the rigors of a diploma.

#### 5.2.17 Planning (Coordination) Technician – Level II

**Position Description:** Maintains inventory control of warehoused products and materials. Responsible for conducting inventories of incoming and outgoing projects. Prepares materials for receipt and field distribution, including related documentation. Tests hardware upon receipt and prior to field distribution.

**Minimum Experience:** 3-5 years' experience in a related field.

**Minimum Education Requirements:** High School diploma or a level of experience commensurate with the rigors of a diploma.

#### 5.2.18 Planning (Coordination) Technician – Level III

**Position Description:** Maintains inventory control of warehoused products and materials. Responsible for conducting inventories of incoming and outgoing projects. Prepares materials for receipt and field distribution, including related documentation. Tests hardware upon receipt and prior to field distribution.

**Minimum Experience:** 5-8 years' experience in a related field.

**Minimum Education Requirements:** High School diploma or a level of experience commensurate with the rigors of a diploma.

#### 5.2.19 Planning (Coordination) Technician - Level IV

**Position Description:** Maintains inventory control of warehoused products and materials. Responsible for conducting inventories of incoming and outgoing projects. Prepares materials for receipt and field distribution, including related documentation. Tests hardware upon receipt and prior to field distribution.

**Minimum Experience:** 8-10 years' experience in a related field.

**Minimum Education Requirements:** High School diploma or a level of experience commensurate with the rigors of a diploma.

#### 5.2.20 Program Manager – Level I

**Position Description:** Responsible for planning, organizing, and directing projects. Performs technical and management oversight including preparation of annual budgets; coordinating the allocation of resources; managing costs; ensuring technical compliance with specifications and schedule; and strict adherence to producing compliant deliverables. Delivers excellent customer services by managing relationships with clients through meeting attendance and correspondence.

**Minimum Experience:** 1-3 years management experience.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

#### 5.2.21 Program Manager – Level II

**Position Description:** Responsible for planning, organizing, and directing projects. Performs technical and management oversight including preparation of annual budgets; coordinating the allocation of resources; managing costs; ensuring technical compliance with specifications and schedule; and strict adherence to producing compliant deliverables. Delivers excellent customer services by managing relationships with clients through meeting attendance and correspondence.

**Minimum Experience:** 3-5 years management experience.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

#### 5.2.22 Program Manager – Level III

**Position Description:** Responsible for planning, organizing, and directing projects. Performs technical and management oversight including preparation of annual budgets; coordinating the allocation of resources; managing costs; ensuring technical compliance with specifications and schedule; and strict adherence to producing compliant deliverables.

Delivers excellent customer services by managing relationships with clients through meeting attendance and correspondence.

**Minimum Experience:** 5-8 years management experience.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

#### 5.2.23 Program Manager - Level IV

**Position Description:** Responsible for planning, organizing, and directing projects. Performs technical and management oversight including preparation of annual budgets; coordinating the allocation of resources; managing costs; ensuring technical compliance with specifications and schedule; and strict adherence to producing compliant deliverables. Delivers excellent customer services by managing relationships with clients through meeting attendance and correspondence.

**Minimum Experience:** 8-10 years management experience.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

#### 5.2.24 Program Manager – Level V

**Position Description:** Responsible for planning, organizing, and directing projects. Performs technical and management oversight including preparation of annual budgets; coordinating the allocation of resources; managing costs; ensuring technical compliance with specifications and schedule; and strict adherence to producing compliant deliverables. Delivers excellent customer services by managing relationships with clients through meeting attendance and correspondence.

**Minimum Experience:** 10+ years management experience.

**Minimum Education Requirements:** Master's Degree or level of experience commensurate with the rigors of an advanced degree.

#### 5.2.25 Project Budget Control Specialist – Level II

**Position Description:** Prepares and updates monthly project revenue and cost reporting, completes project setup in accounting system, prepares and submits monthly project invoicing. Assists with project budgeting, forecasting and close-outs.

**Minimum Experience:** 3-5 years' experience in a related field.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of a degree.

#### 5.2.26 Project Coordinator – Level II

**Position Description:** Supports the day-to-day operational aspects of the project in accordance with the project specifications. Assists with creating and executing project work plans, including maintaining a master project schedule and supporting the project resource

team for delivery. Supports superior customer service by facilitating team and client meetings and necessary correspondence.

**Minimum Experience:** 3-5 years' experience in a related field.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of a degree.

#### 5.2.27 Project Manager – Level I

**Position Description:** Manages the day-to-day operational aspects of the project in accordance with the project specifications. Responsible for creating and executing project work plans, including maintaining a master project schedule and leading a resource team for delivery. Supports superior customer service by facilitating team and client meetings and necessary correspondence.

**Minimum Experience:** 1-3 years management experience.

**Minimum Education Requirements:** Bachelor's degree of a level of experience commensurate with the rigors of an advanced degree.

#### 5.2.28 Project Manager – Level II

**Position Description:** Manages the day-to-day operational aspects of the project in accordance with the project specifications. Responsible for creating and executing project work plans, including maintaining a master project schedule and leading a resource team for delivery. Supports superior customer service by facilitating team and client meetings and necessary correspondence.

**Minimum Experience:** 3-5 years management experience.

**Minimum Education Requirements:** Bachelor's degree of a level of experience commensurate with the rigors of an advanced degree.

#### 5.2.29 Project Manager – Level III

**Position Description:** Manages the day-to-day operational aspects of the project in accordance with the project specifications. Responsible for creating and executing project work plans, including maintaining a master project schedule and leading a resource team for delivery. Supports superior customer service by facilitating team and client meetings and necessary correspondence.

**Minimum Experience:** 5-8 years management experience.

**Minimum Education Requirements:** Bachelor's degree of a level of experience commensurate with the rigors of an advanced degree.

#### 5.2.30 Project Manager – Level IV

**Position Description:** Manages the day-to-day operational aspects of the project in accordance with the project specifications. Responsible for creating and executing project work plans, including maintaining a master project schedule and leading a resource team for

delivery. Supports superior customer service by facilitating team and client meetings and necessary correspondence.

**Minimum Experience:** 8-10 years management experience.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

#### 5.2.31 Purchasing and Materials Administrator – Level II

**Position Description:** Responsible for providing purchasing services, including but not limited to the procurement of all materials, goods and services. Administrator will work and interface with all project leadership regarding the necessary parts, lead time and availability.

**Minimum Experience:** 3-5 years' experience in a related field.

**Minimum Education Requirements:** High School diploma or a level of experience commensurate with the rigors of a diploma.

#### 5.2.32 Security Installation Technician – Level I

**Position Description:** Responsible for supporting the implementation and connection of various security and communication systems. Performs routine maintenance on all applicable equipment and assembles, installs and disassembles communication equipment such as: computer and security systems, surveillance systems and video hardware.

**Minimum Experience:** 0-3 years' experience in a related field.

**Minimum Education Requirements:** High school diploma or a level of experience commensurate with the rigors of a diploma.

#### 5.2.33 Security Installation Technician – Level II

**Position Description:** Responsible for supporting the implementation and connection of various security and communication systems. Performs routine maintenance on all applicable equipment and assembles, installs and disassembles communication equipment such as: computer and security systems, surveillance systems and video hardware.

**Minimum Experience:** 3-5 years' experience in a related field.

**Minimum Education Requirements:** High school diploma or a level of experience commensurate with the rigors of a diploma.

#### 5.2.34 Security Installation Technician – Level III

**Position Description:** Responsible for supporting the implementation and connection of various security and communication systems. Performs routine maintenance on all applicable equipment and assembles, installs and disassembles communication equipment such as: computer and security systems, surveillance systems and video hardware.

**Minimum Experience:** 5-8 years' experience in a related field.

**Minimum Education Requirements:** High school diploma or a level of experience commensurate with the rigors of a diploma.

#### 5.2.35 Security Installation Technician – Level IV

**Position Description:** Responsible for supporting the implementation and connection of various security and communication systems. Performs routine maintenance on all applicable equipment and assembles, installs and disassembles communication equipment such as: computer and security systems, surveillance systems and video hardware.

**Minimum Experience:** 8-10 years' experience in a related field.

**Minimum Education Requirements:** High school diploma or a level of experience commensurate with the rigors of a diploma.

#### 5.2.36 Senior Security Systems Field Engineer – Level I

**Position Description:** Responsible for performing engineering work in the development and design of products and systems where work requires a high degree of engineering skill and independent judgment. Conducts site surveys, test systems and analyzes and quantifies test data. Prepares design documents, technical reports and applicable deliverables. May coordinate and technically lead projects and subordinate engineers.

**Minimum Experience:** 3-5 years' experience in a related field.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

#### 5.2.37 Systems Design Engineer - Level I

**Position Description:** Responsible for performing a variety of systems engineering tasks and activities that are broad in nature and concerned with major systems design, integration, and implementation, including but not limited to, personnel, hardware, software, budgetary, and support facilities and/or equipment. Provides quality assurance review and evaluation of new and existing hardware and software products.

**Minimum Experience:** 1-3 years' experience in a related field.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

#### 5.2.38 Systems Design Engineer - Level II

**Position Description:** Responsible for performing a variety of systems engineering tasks and activities that are broad in nature and concerned with major systems design, integration, and implementation, including but not limited to, personnel, hardware, software, budgetary, and support facilities and/or equipment. Provides quality assurance review and evaluation of new and existing hardware and software products.

**Minimum Experience:** 3-5 years' experience in a related field.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

#### 5.2.39 Systems Design Engineer – Level III

**Position Description:** Responsible for performing a variety of systems engineering tasks and activities that are broad in nature and concerned with major systems design, integration, and implementation, including but not limited to, personnel, hardware, software, budgetary, and support facilities and/or equipment. Provides quality assurance review and evaluation of new and existing hardware and software products.

**Minimum Experience:** 5-8 years' experience in a related field.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

#### 5.2.40 Systems Design Engineer – Level IV

**Position Description:** Responsible for performing a variety of systems engineering tasks and activities that are broad in nature and concerned with major systems design, integration, and implementation, including but not limited to, personnel, hardware, software, budgetary, and support facilities and/or equipment. Provides quality assurance review and evaluation of new and existing hardware and software products.

**Minimum Experience:** 8-10 years' experience in a related field.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

#### 5.2.41 Technical Engineer - Level I

**Position Description:** Responsible for designing, implementing and integrating commercial-off-the-shelf based security solutions. Including, but not limited to, system configuration, system programming, security and user administration. Must possess a thorough knowledge of IP based security management systems such as access control, logical security, intrusion detection, IDS, video systems and identity management.

**Minimum Experience:** 0-3 years' experience in a related field.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

#### 5.2.42 Technical Engineer - Level II

**Position Description:** Responsible for designing, implementing and integrating commercial-off-the-shelf based security solutions. Including, but not limited to, system configuration, system programming, security and user administration. Must possess a thorough knowledge of IP based security management systems such as access control, logical security, intrusion detection, IDS, video systems and identity management.

**Minimum Experience:** 3-5 years' experience in a related field.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

#### 5.2.43 Technical Engineer - Level III

**Position Description:** Responsible for designing, implementing and integrating commercial-off-the-shelf based security solutions. Including, but not limited to, system configuration, system programming, security and user administration. Must possess a thorough knowledge of IP based security management systems such as access control, logical security, intrusion detection, IDS, video systems and identity management.

**Minimum Experience:** 5-8 years' experience in a related field.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

#### 5.2.44 Technical Support Specialist – Level II

**Position Description:** Responsible for performing technical support to all customers, area maintenance technicians, technical trainers, engineering personnel and the installing, maintenance and repair of all electrical cabling and infrastructure, equipment and control systems.

**Minimum Experience:** 3-5 years' experience in a related field.

**Minimum Education Requirements:** High school diploma or a level of experience commensurate with the rigors of a diploma.

#### 5.2.45 Technical Support Technician - Level I

**Position Description:** Responsible for performing technical support to all customers, area maintenance technicians, technical trainers, engineering personnel and the installing, maintenance and repair of all electrical cabling and infrastructure, equipment and control systems.

**Minimum Experience:** 0-1 year's experience in a related field.

**Minimum Education Requirements:** High School diploma or a level of experience commensurate with the rigors of a diploma.

#### 5.2.46 Technical Support Technician - Level II

**Position Description:** Responsible for performing technical support to all customers, area maintenance technicians, technical trainers, engineering personnel and the installing, maintenance and repair of all electrical cabling and infrastructure, equipment and control systems.

**Minimum Experience:** 1-3 years' experience in a related field.

**Minimum Education Requirements:** High School diploma or a level of experience commensurate with the rigors of a diploma.

#### 5.2.47 Technician Support Technician - Level III

**Position Description:** Responsible for performing technical support to all customers, area maintenance technicians, technical trainers, engineering personnel and the installing,

maintenance and repair of all electrical cabling and infrastructure, equipment and control systems.

**Minimum Experience:** 3-5 years' experience in a related field.

**Minimum Education Requirements:** High School diploma or a level of experience commensurate with the rigors of a diploma.

### 5.3 Security and Protection Labor Rates – Security Services

The following net Labor Rates are applicable to SINs 334290, 334512, 541330L

Labor Categories (Contractor Site)			Contractor Site
Contract #	SIN Number	Labor Category	12/13/19 - 12/12/2024
GS-07F-5525R	334290	Administrative Assistant - Level I	\$64.90
GS-07F-5525R	334290	Administrative Assistant - Level II	\$74.64
GS-07F-5525R	334290	Administrative Assistant - Level III	\$85.83
GS-07F-5525R	334512, 541330L	CAD Specialist - Level I	\$81.14
GS-07F-5525R	334512, 541330L	CAD Specialist - Level II	\$93.31
GS-07F-5525R	334512, 541330L	CAD Specialist - Level III	\$107.31
GS-07F-5525R	334512, 541330L	Engineering Subject Matter Expert - Level I	\$165.08
GS-07F-5525R	334512, 541330L	Field Operations Supervisor – Level II	\$129.43
GS-07F-5525R	334512, 541330L	Instructor - Level II	\$102.87
GS-07F-5525R	334512, 541330L	Instructor - Level III	\$105.46
GS-07F-5525R	334512, 541330L	Maintenance Operations Manager - Level I	\$88.35
GS-07F-5525R	334512, 541330L	Maintenance Operations Manager - Level II	\$101.60
GS-07F-5525R	334512, 541330L	Maintenance Operations Subject Matter Expert - Level I	\$181.46
GS-07F-5525R	334290	Maintenance Technician - Level II	\$92.66
GS-07F-5525R	334512, 541330L	Physical Security Consultant – Level III	\$279.55
GS-07F-5525R	334290	Planning (Coordination) Technician - Level I	\$79.44
GS-07F-5525R	334290	Planning (Coordination) Technician - Level II	\$91.36
GS-07F-5525R	334290	Planning (Coordination) Technician - Level III	\$105.06
GS-07F-5525R	334290	Planning (Coordination) Technician - Level IV	\$120.82
GS-07F-5525R	334512, 541330L	Program Manager – Level I	\$169.12
GS-07F-5525R	334512, 541330L	Program Manager – Level II	\$194.49
GS-07F-5525R	334512, 541330L	Program Manager – Level III	\$223.66
GS-07F-5525R	334512, 541330L	Program Manager – Level IV	\$257.21
GS-07F-5525R	334512, 541330L	Program Manager – Level V	\$295.79
GS-07F-5525R	334512, 541330L	Project Budget Control Specialist – Level II	\$115.87
GS-07F-5525R	334512, 541330L	Project Coordinator – Level II	\$129.88
GS-07F-5525R	334512, 541330L	Project Manager – Level I	\$153.80
GS-07F-5525R	334512, 541330L	Project Manager – Level II	\$176.87

Labor Categories (Contractor Site)			Contractor Site
Contract #	SIN Number	Labor Category	12/13/19 - 12/12/2024
GS-07F-5525R	334512, 541330L	Project Manager – Level III	\$203.40
GS-07F-5525R	334512, 541330L	Project Manager – Level IV	\$233.91
GS-07F-5525R	334512, 541330L	Purchasing and Materials Administrator - Level II	\$87.70
GS-07F-5525R	334290	Security Installation Technician - Level I	\$67.11
GS-07F-5525R	334290	Security Installation Technician - Level II	\$77.18
GS-07F-5525R	334290	Security Installation Technician - Level III	\$88.75
GS-07F-5525R	334290	Security Installation Technician - Level IV	\$110.32
GS-07F-5525R	334512, 541330L	Sr. Security Systems Field Engineer - Level I	\$137.90
GS-07F-5525R	334512, 541330L	Systems Design Engineer - Level I	\$112.82

## 6.2 Information Technology Labor Category Descriptions – Information Technology Professional Services

**\*\* NOTE \*\***

***Information Technology Professional Services (SIN 54151S) are approved by GSA and temporarily listed on this contract under SIN 334290 and SIN 541330L until Phase 3 of the Multiple Award Schedule consolidation is completed. The following serve as the Information Technology Professional Services offerings:***

*SIN 54151S (Formerly 132-51): Information Technology Professional Services - SUBJECT TO COOPERATIVE PURCHASING - IT Professional Services and/or labor categories for database planning and design; systems analysis, integration, and design; programming, conversion and implementation support; network services, data/records management, and testing.*

### 6.2.1 Computer Network Operations Manager – Level I

**Position Description:** Formulates, defines and documents scope and objectives for sustainment of information technology (IT) systems, components, software, applications, and hardware. Responsible for coordinating the logistical, operational, and administrative functions necessary for sustainment. Coordinate work, resolve sustainment issues, ensures service delivery requirements are satisfied.

**Minimum Experience:** 1-3 years' experience in a related field.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

### 6.2.2 Computer Network Operations Manager – Level II

**Position Description:** Formulates, defines and documents scope and objectives for sustainment of information technology (IT) systems, components, software, applications, and hardware. Responsible for coordinating the logistical, operational, and administrative functions necessary for sustainment. Coordinate work, resolve sustainment issues, ensures service delivery requirements are satisfied.

**Minimum Experience:** 3-5 years' experience in a related field.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

### 6.2.3 Computer Network Operations Manager – Level III

**Position Description:** Formulates, defines and documents scope and objectives for sustainment of information technology (IT) systems, components, software, applications, and hardware. Responsible for coordinating the logistical, operational, and administrative functions necessary for sustainment. Coordinate work, resolve sustainment issues, ensures service delivery requirements are satisfied.

**Minimum Experience:** 5-8 years' experience in a related field.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

#### 6.2.4 Computer Network Operations Manager – Level IV

**Position Description:** Formulates, defines and documents scope and objectives for sustainment of information technology (IT) systems, components, software, applications, and hardware. Responsible for coordinating the logistical, operational, and administrative functions necessary for sustainment. Coordinate work, resolve sustainment issues, ensures service delivery requirements are satisfied.

**Minimum Experience:** 8-10 years' experience in a related field.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

#### 6.2.5 Computer Network Operations Manager – Level V

**Position Description:** Formulates, defines and documents scope and objectives for sustainment of information technology (IT) systems, components, software, applications, and hardware. Responsible for coordinating the logistical, operational, and administrative functions necessary for sustainment. Coordinate work, resolve sustainment issues, ensures service delivery requirements are satisfied.

**Minimum Experience:** 10+ years' experience in a related field.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

#### 6.2.6 Computer Network Support Specialist – Level I

**Position Description:** Using drafting or other graphics support applications, responsible for producing complex iterative diagrams detailing network and systems designs with iconography, information flow, integration logic, equipment schedules, and other information to document and support engineering, deployment, and logistics efforts.

**Minimum Experience:** 1-3 years' experience in a related field.

**Minimum Education Requirements:** High School diploma or a level of experience commensurate with the rigors of a diploma.

#### 6.2.7 Computer Network Support Specialist – Level II

**Position Description:** Using drafting or other graphics support applications, responsible for producing complex iterative diagrams detailing network and systems designs with iconography, information flow, integration logic, equipment schedules, and other information to document and support engineering, deployment, and logistics efforts.

**Minimum Experience:** 3-5 years' experience in a related field.

**Minimum Education Requirements:** High School diploma or a level of experience commensurate with the rigors of a diploma.

#### 6.2.8 Computer Network Support Specialist – Level III

**Position Description:** Using drafting or other graphics support applications, responsible for producing complex iterative diagrams detailing network and systems designs with iconography, information flow, integration logic, equipment schedules, and other information to document and support engineering, deployment, and logistics efforts.

**Minimum Experience:** 5-8 years' experience in a related field.

**Minimum Education Requirements:** High School diploma or a level of experience commensurate with the rigors of a diploma.

#### 6.2.9 Computer Network Support Specialist – Level IV

**Position Description:** Using drafting or other graphics support applications, responsible for producing complex iterative diagrams detailing network and systems designs with iconography, information flow, integration logic, equipment schedules, and other information to document and support engineering, deployment, and logistics efforts.

**Minimum Experience:** 8-10 years' experience in a related field.

**Minimum Education Requirements:** High School diploma or a level of experience commensurate with the rigors of a diploma.

#### 6.2.10 Computer Systems & Network Administrator - Level I

**Position Description:** Assembles, disassembles, installs, configures, and implements information technology (IT) components, hardware, software, applications, and systems according to system design. Makes and implements data communication and/or network connections, as specified, across local area network (LAN), wide area network (WAN), Internet, and or telecommunication protocols. Monitors network to ensure availability to system users and follows network security measures. Capable of diagnosing issues and troubleshooting for satisfactory system delivery.

**Minimum Experience:** 0-3 years' experience in a related field.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

#### 6.2.11 Computer Systems & Network Administrator - Level II

**Position Description:** Assembles, disassembles, installs, configures, and implements information technology (IT) components, hardware, software, applications, and systems according to system design. Makes and implements data communication and/or network connections, as specified, across local area network (LAN), wide area network (WAN), Internet, and or telecommunication protocols. Monitors network to ensure availability to system users and follows network security measures. Capable of diagnosing issues and troubleshooting for satisfactory system delivery.

**Minimum Experience:** 3-5 years' experience in a related field.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

#### 6.2.12 Computer Systems & Network Administrator - Level III

**Position Description:** Assembles, disassembles, installs, configures, and implements information technology (IT) components, hardware, software, applications, and systems according to system design. Makes and implements data communication and/or network connections, as specified, across local area network (LAN), wide area network (WAN), Internet, and or telecommunication protocols. Monitors network to ensure availability to system users and follows network security measures. Capable of diagnosing issues and troubleshooting for satisfactory system delivery.

**Minimum Experience:** 5-8 years' experience in a related field.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

#### 6.2.13 Computer Systems & Network Administrator - Level IV

**Position Description:** Responsible for the direct supervision and logistics related to the information technology (IT) system delivery. Assembles, disassembles, installs, configures, and implements information technology (IT) components, hardware, software, applications, and systems according to system design. Makes and implements data communication and/or network connections, as specified, across local area network (LAN), wide area network (WAN), Internet, and or telecommunication protocols. Monitors network to ensure availability to system users and follows network security measures. Capable of diagnosing issues and troubleshooting for satisfactory system delivery.

**Minimum Experience:** 8-10 years' experience in a related field.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

#### 6.2.14 Computer Systems Engineer/Architect - Level I

**Position Description:** Performs high-level systems analysis, evaluation, design, integration, documentation, and implementation of a very complex applications, systems, and computer and information networks which requires a thorough knowledge of administrative and technical skills. Directs and participates in all phases of system development with an emphasis on network modeling, planning, analysis, evaluation, integration, quality assurance testing and acceptance phases as well as network security measures. Applies higher level business or technical principles and methods to very difficult technical problems to arrive at an automated engineering solution. Designs and prepares technical reports and related documentation.

**Minimum Experience:** 1-3 years' experience in a related field.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

#### 6.2.15 Computer Systems Engineer/Architect - Level II

**Position Description:** Performs high-level systems analysis, evaluation, design, integration, documentation, and implementation of a very complex applications, systems, and computer and information networks which requires a thorough knowledge of administrative and technical skills. Directs and participates in all phases of system development with an emphasis on network modeling, planning, analysis, evaluation, integration, quality assurance testing and acceptance phases as well as network security measures. Applies higher level business or technical principles and methods to very difficult technical problems to arrive at an automated engineering solution. Designs and prepares technical reports and related documentation.

**Minimum Experience:** 3-5 years' experience in a related field.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

#### 6.2.16 Computer Systems Engineer/Architect - Level III

**Position Description:** Performs high-level systems analysis, evaluation, design, integration, documentation, and implementation of a very complex applications, systems, and computer and information networks which requires a thorough knowledge of administrative and technical skills. Directs and participates in all phases of system development with an emphasis on network modeling, planning, analysis, evaluation, integration, quality assurance testing and acceptance phases as well as network security measures. Applies higher level business or technical principles and methods to very difficult technical problems to arrive at an automated engineering solution. Designs and prepares technical reports and related documentation.

**Minimum Experience:** 5-8 years' experience in a related field.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

#### 6.2.17 Computer Systems Engineer/Architect - Level IV

**Position Description:** Performs high-level systems analysis, evaluation, design, integration, documentation, and implementation of a very complex applications, systems, and computer and information networks which requires a thorough knowledge of administrative and technical skills. Directs and participates in all phases of system development with an emphasis on network modeling, planning, analysis, evaluation, integration, quality assurance testing and acceptance phases as well as network security measures. Applies higher level business or technical principles and methods to very difficult technical problems to arrive at an automated engineering solution. Designs and prepares technical reports and related documentation. **Minimum Experience:** 8-10 years' experience in a related field.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

#### 6.2.18 Computer Systems Engineer/Architect - Level V

**Position Description:** Considerable experience with the design, integration and maintenance of large-scale IT engineering projects. Responsible for the hands-on integration of all IT components, to include implementation of network policies, procedures and standards. Network performance, complex troubleshooting, developing overall test requirements and the final preparation of detailed as-built documentation. Serve as an information security technical expert, providing action as needed and responsible for interfacing with vendors, clients and staff concerning all IT and networking requirements and issues.

**Minimum Experience:** 10+ years' experience in a related field.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

#### 6.2.19 Computer Systems Engineering Technician - Level I

**Position Description:** Provides engineering technical support for system development and to analyze, test, troubleshoot, and evaluate existing networked systems, such as local area network (LAN), wide area network (WAN), and Internet systems or segments of a networked system. Provide support to

Computer Systems Engineer and other positions. Prepares technical reports and related documentation.

**Minimum Experience:** 0-3 years' experience in a related field.

**Minimum Education Requirements:** High School diploma or a level of experience commensurate with the rigors of a diploma.

#### 6.2.20 Computer Systems Engineering Technician - Level II

**Position Description:** Provides engineering technical support for system development and to analyze, test, troubleshoot, and evaluate existing networked systems, such as local area network (LAN), wide area network (WAN), and Internet systems or segments of a networked system. Provide support to Computer Systems Engineer and other positions. Prepares technical reports and related documentation.

**Minimum Experience:** 3-5 years' experience in a related field.

**Minimum Education Requirements:** High School diploma or a level of experience commensurate with the rigors of a diploma.

#### 6.2.21 Computer Systems Engineering Technician - Level III

**Position Description:** Provides engineering technical support for system development and to analyze, test, troubleshoot, and evaluate existing networked systems, such as local area network (LAN), wide area network (WAN), and Internet systems or segments of a networked system. Provide support to Computer Systems Engineer and other positions. Prepares technical reports and related documentation.

**Minimum Experience:** 5-8 years' experience in a related field.

**Minimum Education Requirements:** High School diploma or a level of experience commensurate with the rigors of a diploma.

#### 6.2.22 Computer Systems Engineering Technician - Level IV

**Position Description:** Provides engineering technical support for system development and to analyze, test, troubleshoot, and evaluate existing networked systems, such as local area network (LAN), wide area network (WAN), and Internet systems or segments of a networked system. Provide support to Computer Systems Engineer and other positions. Prepares technical reports and related documentation.

**Minimum Experience:** 8-10 years' experience in a related field.

**Minimum Education Requirements:** High School diploma or a level of experience commensurate with the rigors of a diploma.

#### 6.2.23 Computer User Support Specialist - Level I

**Position Description:** Responsible for performing technical support to all customers including answering questions or resolve information technology (IT) problems for clients in person, via telephone, or electronically. May provide troubleshooting assistance concerning the use of IT hardware, software, applications, and network connections.

**Minimum Experience:** 0-1 years' experience in a related field.

**Minimum Education Requirements:** High School diploma or a level of experience commensurate with the rigors of a diploma.

6.2.24 Computer User Support Specialist - Level II

**Position Description:** Responsible for performing technical support to all customers including answering questions or resolve information technology (IT) problems for clients in person, via telephone, or electronically. May provide troubleshooting assistance concerning the use of IT hardware, software, applications, and network connections.

**Minimum Experience:** 1-3 years' experience in a related field.

**Minimum Education Requirements:** High School diploma or a level of experience commensurate with the rigors of a diploma.

6.2.25 Computer User Support Specialist - Level III

**Position Description:** Responsible for performing technical support to all customers including answering questions or resolve information technology (IT) problems for clients in person, via telephone, or electronically. May provide troubleshooting assistance concerning the use of IT hardware, software, applications, and network connections.

**Minimum Experience:** 3-5 years' experience in a related field.

**Minimum Education Requirements:** High School diploma or a level of experience commensurate with the rigors of a diploma.

6.2.26 Information Security Analyst - Level I

**Position Description:** Plan, implement, upgrade, or monitor security measures for the protection of computer networks and information. May ensure appropriate security controls are in place that will safeguard digital files and vital electronic infrastructure. May respond to computer security breaches and viruses.

**Minimum Experience:** 0-3 years' experience in a related field.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

6.2.27 Information Security Analyst - Level II

**Position Description:** Plan, implement, upgrade, or monitor security measures for the protection of computer networks and information. May ensure appropriate security controls are in place that will safeguard digital files and vital electronic infrastructure. May respond to computer security breaches and viruses.

**Minimum Experience:** 3-5 years' experience in a related field.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

6.2.28 Information Security Analyst - Level III

**Position Description:** Plan, implement, upgrade, or monitor security measures for the protection of computer networks and information. May ensure appropriate security controls are in place that will

safeguard digital files and vital electronic infrastructure. May respond to computer security breaches and viruses.

**Minimum Experience:** 5-7 years' experience in a related field.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

#### 6.2.29 Information Security Analyst - Level IV

**Position Description:** Plan, implement, upgrade, or monitor security measures for the protection of computer networks and information. May ensure appropriate security controls are in place that will safeguard digital files and vital electronic infrastructure. May respond to computer security breaches and viruses.

**Minimum Experience:** 7-10 years' experience in a related field.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

#### 6.2.30 Information Security Analyst - Level V

**Position Description:** Plan, implement, upgrade, or monitor security measures for the protection of computer networks and information. May ensure appropriate security controls are in place that will safeguard digital files and vital electronic infrastructure. May respond to computer security breaches and viruses.

**Minimum Experience:** 10+ years' experience in a related field.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

#### 6.2.31 Integrated Logistics Support Specialist - Level I

**Position Description:** Responsible for the coordination, tracking, control, storage, and delivery of information technology (IT) system components, hardware, peripherals, cables, and other tangible materials. Conducts inventories and prepares documentation for incoming and outgoing projects. May test hardware, components, peripherals and the like prior to field distribution.

**Minimum Experience:** 0-3 years' experience in a related field.

**Minimum Education Requirements:** High School diploma or a level of experience commensurate with the rigors of a diploma.

#### 6.2.32 Integrated Logistics Support Specialist - Level II

**Position Description:** Responsible for the coordination, tracking, control, storage, and delivery of information technology (IT) system components, hardware, peripherals, cables, and other tangible materials. Conducts inventories and prepares documentation for incoming and outgoing projects. May test hardware, components, peripherals and the like prior to field distribution.

**Minimum Experience:** 3-5 years' experience in a related field.

**Minimum Education Requirements:** High School diploma or a level of experience commensurate with the rigors of a diploma.

#### 6.2.33 Integrated Logistics Support Specialist - Level III

**Position Description:** Responsible for the coordination, tracking, control, storage, and delivery of information technology (IT) system components, hardware, peripherals, cables, and other tangible materials. Conducts inventories and prepares documentation for incoming and outgoing projects. May test hardware, components, peripherals and the like prior to field distribution.

**Minimum Experience:** 5-8 years' experience in a related field.

**Minimum Education Requirements:** High School diploma or a level of experience commensurate with the rigors of a diploma.

#### 6.2.34 Integrated Logistics Support Specialist - Level IV

**Position Description:** Responsible for the coordination, tracking, control, storage, and delivery of information technology (IT) system components, hardware, peripherals, cables, and other tangible materials. Conducts inventories and prepares documentation for incoming and outgoing projects. May test hardware, components, peripherals and the like prior to field distribution.

**Minimum Experience:** 8-10 years' experience in a related field.

**Minimum Education Requirements:** High School diploma or a level of experience commensurate with the rigors of a diploma.

#### 6.2.35 IT Administrative Support - Level I

**Position Description:** Carries out the clerical aspects of the documentation function for information technology (IT) projects, including preparing correspondence, reports, presentation materials, documents, agenda, notices, minutes, calendars, schedules, and contacts. May also schedule meetings, book travel, answer telephones, and track correspondence.

**Minimum Experience:** 0-1 years' experience in a related field.

**Minimum Education Requirements:** High School diploma or a level of experience commensurate with the rigors of a diploma.

#### 6.2.36 IT Administrative Support - Level II

**Position Description:** Carries out the clerical aspects of the documentation function for information technology (IT) projects, including preparing correspondence, reports, presentation materials, documents, agenda, notices, minutes, calendars, schedules, and contacts. May also schedule meetings, book travel, answer telephones, and track correspondence.

**Minimum Experience:** 1-3 years' experience in a related field.

**Minimum Education Requirements:** High School diploma or a level of experience commensurate with the rigors of a diploma.

#### 6.2.37 IT Administrative Support - Level III

**Position Description:** Carries out the clerical aspects of the documentation function for information technology (IT) projects, including preparing correspondence, reports, presentation materials, documents, agenda, notices, minutes, calendars, schedules, and contacts. May also schedule meetings, book travel, answer telephones, and track correspondence.

**Minimum Experience:** 3-5 years' experience in a related field.

**Minimum Education Requirements:** High School diploma or a level of experience commensurate with the rigors of a diploma.

#### 6.2.38 IT Program Manager - Level I

**Position Description:** Responsible for planning, organizing, and directing information technology (IT) programs, and monitoring the work of team members. Oversees high-level systems analysis, evaluation, design, integration, documentation, and implementation of very complex applications which requires a thorough knowledge of administrative and technical skills. Directs and participates in all phases of system development with an emphasis on planning, analysis, evaluation, integration, testing and acceptance phases. Applies higher level business or technical principles and methods to very difficult technical problems to arrive at technology solutions. Devises or modifies procedures to solve complex problems considering computer equipment capacity and limitations, operating time and form of desired results. Prepares detailed program specifications for which programs will be written. Performs technical and management oversight including preparation of annual budgets; coordinating the allocation of resources; managing costs; ensuring technical compliance with specifications and schedule; and strict adherence to producing compliant deliverables. Responsible for quality assurance review. May be responsible for project completion and user satisfaction.

**Minimum Experience:** 1-3 years management experience.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

#### 6.2.39 IT Program Manager - Level II

**Position Description:** Responsible for planning, organizing, and directing information technology (IT) programs, and monitoring the work of team members. Oversees high-level systems analysis, evaluation, design, integration, documentation, and implementation of very complex applications which requires a thorough knowledge of administrative and technical skills. Directs and participates in all phases of system development with an emphasis on planning, analysis, evaluation, integration, testing and acceptance phases. Applies higher level business or technical principles and methods to very difficult technical problems to arrive at technology solutions. Devises or modifies procedures to solve complex problems considering computer equipment capacity and limitations, operating time and form of desired results. Prepares detailed program specifications for which programs will be written. Performs technical and management oversight including preparation of annual budgets; coordinating the allocation of resources; managing costs; ensuring technical compliance with specifications and schedule; and strict adherence to producing compliant deliverables. Responsible for quality assurance review. May be responsible for project completion and user satisfaction.

**Minimum Experience:** 3-5 years management experience.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

#### 6.2.40 IT Program Manager - Level III

**Position Description:** Responsible for planning, organizing, and directing information technology (IT) programs, and monitoring the work of team members. Oversees high-level systems analysis, evaluation, design, integration, documentation, and implementation of very complex applications

which requires a thorough knowledge of administrative and technical skills. Directs and participates in all phases of system development with an emphasis on planning, analysis, evaluation, integration, testing and acceptance phases. Applies higher level business or technical principles and methods to very difficult technical problems to arrive at technology solutions. Devises or modifies procedures to solve complex problems considering computer equipment capacity and limitations, operating time and form of desired results. Prepares detailed program specifications for which programs will be written. Performs technical and management oversight including preparation of annual budgets; coordinating the allocation of resources; managing costs; ensuring technical compliance with specifications and schedule; and strict adherence to producing compliant deliverables. Responsible for quality assurance review. May be responsible for project completion and user satisfaction.

**Minimum Experience:** 5-8 years management experience.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

#### 6.2.41 IT Program Manager - Level IV

**Position Description:** Responsible for planning, organizing, and directing information technology (IT) programs, and monitoring the work of team members. Oversees high-level systems analysis, evaluation, design, integration, documentation, and implementation of very complex applications which requires a thorough knowledge of administrative and technical skills. Directs and participates in all phases of system development with an emphasis on planning, analysis, evaluation, integration, testing and acceptance phases. Applies higher level business or technical principles and methods to very difficult technical problems to arrive at technology solutions. Devises or modifies procedures to solve complex problems considering computer equipment capacity and limitations, operating time and form of desired results. Prepares detailed program specifications for which programs will be written. Performs technical and management oversight including preparation of annual budgets; coordinating the allocation of resources; managing costs; ensuring technical compliance with specifications and schedule; and strict adherence to producing compliant deliverables. Responsible for quality assurance review. May be responsible for project completion and user satisfaction.

**Minimum Experience:** 8-10 years management experience.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

#### 6.2.42 IT Program Manager - Level V

**Position Description:** Responsible for planning, organizing, and directing information technology (IT) programs, and monitoring the work of team members. Oversees high-level systems analysis, evaluation, design, integration, documentation, and implementation of very complex applications which requires a thorough knowledge of administrative and technical skills. Directs and participates in all phases of system development with an emphasis on planning, analysis, evaluation, integration, testing and acceptance phases. Applies higher level business or technical principles and methods to very difficult technical problems to arrive at technology solutions. Devises or modifies procedures to solve complex problems considering computer equipment capacity and limitations, operating time and form of desired results. Prepares detailed program specifications for which programs will be written. Performs technical and management oversight including preparation of annual budgets; coordinating the allocation of resources; managing costs; ensuring technical compliance with specifications and

schedule; and strict adherence to producing compliant deliverables. Responsible for quality assurance review. May be responsible for project completion and user satisfaction.

**Minimum Experience:** 10+ years management experience.

**Minimum Education Requirements:** Master's degree or a level of experience commensurate with the rigors of an advanced degree.

#### 6.2.43 IT Project Manager - Level I

**Position Description:** Responsible for managing the day-to-day operational aspects of an information technology (IT) project in accordance with the project requirements and specifications. Creates and executes project work plans for responsive service delivery. Has full technical knowledge of all phases of systems development with emphasis on planning, analysis, evaluation, integration, testing and acceptance phases. Prepares of project budgets; coordinate the allocation of resources; manage costs; ensures technical compliance with specifications and schedule; and strict adherence to producing compliant deliverables. Delivers excellent customer services by managing relationships with clients through meeting attendance and correspondence. May be responsible for project completion and user satisfaction

**Minimum Experience:** 1-3 years management experience.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

#### 6.2.44 IT Project Manager - Level II

**Position Description:** Responsible for managing the day-to-day operational aspects of an information technology (IT) project in accordance with the project requirements and specifications. Creates and executes project work plans for responsive service delivery. Has full technical knowledge of all phases of systems development with emphasis on planning, analysis, evaluation, integration, testing and acceptance phases. Prepares of project budgets; coordinate the allocation of resources; manage costs; ensures technical compliance with specifications and schedule; and strict adherence to producing compliant deliverables. Delivers excellent customer services by managing relationships with clients through meeting attendance and correspondence. May be responsible for project completion and user satisfaction

**Minimum Experience:** 3-5 years management experience.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

#### 6.2.45 IT Project Manager - Level III

**Position Description:** Responsible for managing the day-to-day operational aspects of an information technology (IT) project in accordance with the project requirements and specifications. Creates and executes project work plans for responsive service delivery. Has full technical knowledge of all phases of systems development with emphasis on planning, analysis, evaluation, integration, testing and acceptance phases. Prepares of project budgets; coordinate the allocation of resources; manage costs; ensures technical compliance with specifications and schedule; and strict adherence to producing compliant deliverables. Delivers excellent customer services by managing relationships with clients

through meeting attendance and correspondence. May be responsible for project completion and user satisfaction

**Minimum Experience:** 5-8 years management experience.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

#### 6.2.46 IT Project Manager - Level IV

**Position Description:** Responsible for managing the day-to-day operational aspects of an information technology (IT) project in accordance with the project requirements and specifications. Creates and executes project work plans for responsive service delivery. Has full technical knowledge of all phases of systems development with emphasis on planning, analysis, evaluation, integration, testing and acceptance phases. Prepares of project budgets; coordinate the allocation of resources; manage costs; ensures technical compliance with specifications and schedule; and strict adherence to producing compliant deliverables. Delivers excellent customer services by managing relationships with clients through meeting attendance and correspondence. May be responsible for project completion and user satisfaction

**Minimum Experience:** 8-10 years management experience.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

#### 6.2.47 IT Project Manager - Level V

**Position Description:** Responsible for managing the day-to-day operational aspects of an information technology (IT) project in accordance with the project requirements and specifications. Creates and executes project work plans for responsive service delivery. Has full technical knowledge of all phases of systems development with emphasis on planning, analysis, evaluation, integration, testing and acceptance phases. Prepares of project budgets; coordinate the allocation of resources; manage costs; ensures technical compliance with specifications and schedule; and strict adherence to producing compliant deliverables. Delivers excellent customer services by managing relationships with clients through meeting attendance and correspondence. May be responsible for project completion and user satisfaction

**Minimum Experience:** 10+ years management experience.

**Minimum Education Requirements:** Master's degree or a level of experience commensurate with the rigors of an advanced degree.

#### 6.2.48 Software Developer, Applications - Level I

**Position Description:** Develop, create, and modify general computer applications software or specialized utility programs. Analyze user needs and develop software solutions. Design software or customize software for client use with the aim of optimizing operational efficiency. May analyze and design databases within an application area, working individually or coordinating database development as part of a team.

**Minimum Experience:** 1-3 years' experience in a related field.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

#### 6.2.49 Software Developer, Applications - Level II

**Position Description:** Develop, create, and modify general computer applications software or specialized utility programs. Analyze user needs and develop software solutions. Design software or customize software for client use with the aim of optimizing operational efficiency. May analyze and design databases within an application area, working individually or coordinating database development as part of a team. May supervise computer programmers.

**Minimum Experience:** 3-5 years' experience in a related field.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

#### 6.2.50 Software Developer, Applications - Level III

**Position Description:** Develop, create, and modify general computer applications software or specialized utility programs. Analyze user needs and develop software solutions. Design software or customize software for client use with the aim of optimizing operational efficiency. May analyze and design databases within an application area, working individually or coordinating database development as part of a team. May supervise computer programmers.

**Minimum Experience:** 5-8 years' experience in a related field.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

#### 6.2.51 Software Developer, Applications - Level IV

**Position Description:** Develop, create, and modify general computer applications software or specialized utility programs. Analyze user needs and develop software solutions. Design software or customize software for client use with the aim of optimizing operational efficiency. May analyze and design databases within an application area, working individually or coordinating database development as part of a team. May supervise computer programmers.

**Minimum Experience:** 8-10 years' experience in a related field.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

#### 6.2.52 Software Developer, Applications - Level V

**Position Description:** Develop, create, and modify general computer applications software or specialized utility programs. Analyze user needs and develop software solutions. Design software or customize software for client use with the aim of optimizing operational efficiency. May analyze and design databases within an application area, working individually or coordinating database development as part of a team. May supervise computer programmers.

**Minimum Experience:** 10+ years' experience in a related field.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

#### 6.2.53 Training and Development Specialist - Level I

**Position Description:** Organizes, prepares and conducts complex training and educational programs for information systems or user personnel. May design and develop in-house training programs. Maintains records of training activities, student progress and training program effectiveness. Competent to work the highest level of all phases of information systems training.

**Minimum Experience:** 1-3 years' experience in a related field.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

#### 6.2.54 Training and Development Specialist - Level II

**Position Description:** Organizes, prepares and conducts complex training and educational programs for information systems or user personnel. May design and develop in-house training programs. Maintains records of training activities, student progress and training program effectiveness. Competent to work the highest level of all phases of information systems training.

**Minimum Experience:** 3-5 years' experience in a related field.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

#### 6.2.55 Training and Development Specialist - Level III

**Position Description:** Organizes, prepares and conducts complex training and educational programs for information systems or user personnel. May design and develop in-house training programs. Maintains records of training activities, student progress and training program effectiveness. Competent to work the highest level of all phases of information systems training.

**Minimum Experience:** 5-8 years' experience in a related field.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

#### 6.2.56 Training and Development Specialist - Level IV

**Position Description:** Organizes, prepares and conducts complex training and educational programs for information systems or user personnel. May design and develop in-house training programs. Maintains records of training activities, student progress and training program effectiveness. Competent to work the highest level of all phases of information systems training.

**Minimum Experience:** 8-10 years' experience in a related field.

**Minimum Education Requirements:** Bachelor's degree or a level of experience commensurate with the rigors of an advanced degree.

### 6.3 Information Technology Labor Category Descriptions – Information Technology Professional Services

**\*\* NOTE \*\***

***Information Technology Professional Services (SIN 54151S) are approved by GSA and temporarily listed on this contract under SIN 334290 and SIN 541330L until Phase 3 of the Multiple Award Schedule consolidation is completed. The following serve as the Information Technology Professional Services offerings:***

***SIN 54151S (Formerly 132-51): Information Technology Professional Services - SUBJECT TO COOPERATIVE PURCHASING - IT Professional Services and/or labor categories for database planning and design; systems analysis, integration, and design; programming, conversion and implementation support; network services, data/records management, and testing.***

The following net Labor Rates are applicable to SINs 334290, 541330L

Labor Categories			Contractor Site				
Contract #	SIN Number	Labor Category	2/27/20 - 12/12/2020	12/13/20 - 12/12/2021	12/13/21 - 12/12/2022	12/13/22 - 12/12/2023	12/13/23 - 12/12/2024
GS-07F-5525R	541330L	Computer Network Operations Manager - Level I	\$92.47	\$95.25	\$98.11	\$101.05	\$104.08
GS-07F-5525R	541330L	Computer Network Operations Manager - Level III	\$113.61	\$117.02	\$120.53	\$124.15	\$127.87

GS-07F-5525R	334290L	LENEL	04-0001-03	Security Tool - for tamper resistant screw on EntryProx	4.20
GS-07F-5525R	334290L	LENEL	5365-EBP00	MiniProx, Beige w/ Pigtail Leads (5-16 VDC)	142.75
GS-07F-5525R	334290L	LENEL	5365-EGP00	MiniProx, Gray w/ Pigtail Leads (5-16 VDC)	142.75
GS-07F-5525R	334290L	LENEL	5375-AGN00	MaxiProx, Gray, (24 VDC)	482.62
GS-07F-5525R	334290L	LENEL	5395-CB100	ThinLine II Switch Plate Reader (5-16 VDC) Beige	145.47
GS-07F-5525R	334290L	LENEL	5395-CG100	ThinLine II Switch Plate Reader (5-16 VDC) Gray	145.47
GS-07F-5525R	334290L	LENEL	5395-CK100	ThinLine II Switch Plate Reader (5-16 VDC) Black	145.47
GS-07F-5525R	334290L	LENEL	5395-CW100	ThinLine II Switch Plate Reader (5-16 VDC) White	145.47
GS-07F-5525R	334290L	LENEL	5455-BBN00	ProxPro II, Beige, (5-16 VDC)	153.63
GS-07F-5525R	334290L	LENEL	5455-BGN00	ProxPro II, Gray, (5-16 VDC)	153.63

GS-07F-5525R	334290L	LENEL	6005-BBB00	ProxPoint, Beige, w/Pigtail Leads, beeper and LED (4.75-16VDC)	87.00
GS-07F-5525R	334290L	LENEL	6005-BGB00	ProxPoint, Gray, w/Pigtail Leads, beeper and LED (4.75-16VDC)	87.00
GS-07F-5525R	334290L	LENEL	LNL-2005W	Magnetic Card Access Reader – 12 VDC, track 2 weatherized, one-million pass extended wear read head, (No keypad Available), Black, tamper not available on this reader. (UL Approved)	134.72
GS-07F-5525R	334290L	LENEL	LNL-2005W-5	Magnetic Card Access Reader – 5 VDC, track 2 weatherized, one-million pass extended wear read head, (No Keypad Available), Black, tamper not available on this reader (UL Approved)	134.72
GS-07F-5525R	334290L	LENEL	LNL-2010W	Magnetic Card Access Reader – 12 VDC, track 2, weatherized, one-million pass extended wear read head, Black (UL Approved)	185.07
GS-07F-5525R	334290L	LENEL	LNL-2010W-5	Magnetic Card Access Reader – 5 VDC, track 2, weatherized, one-million pass extended wear read head, Black (UL Approved)	185.07
GS-07F-5525R	334290L	LENEL	LNL-2020W	Magnetic Card Access Reader with Keypad – 12 VDC, track 2, one-million pass extended wear read head, weatherized, Black (UL Approved)	268.07
GS-07F-5525R	334290L	LENEL	LNL-2020W-5	Magnetic Card Access Reader with Keypad – 5 VDC, track 2, one-million pass extended wear read head, weatherized, Black (UL Approved)	268.07
GS-07F-5525R	334290L	LENEL	LNL-2020W-NDK	Magnetic Card Access Reader with non-destructable Keypad – 12 VDC, track 2, one-million pass extended wear read head, with TTL connector, weatherized, (UL Approved)	529.37

Contract #	SIN Number	Manufacturer	Part Number	Description	NET GSA PRICE
GS-07F-5525R	334290L	LENEL	LPMR-1824	LenelProx Mid Range Reader, Wiegand and RS232 (simultaneous) output, 18 to 24 inch Read Range, 5-12 VDC [250 to 650 mA typical] Dimensions only 8"x8"x1", Indoor/Outdoor, (color Gray only)	244.94
GS-07F-5525R	334290L	LENEL	LP-MT	Metal Mount Tag High Frequency, for use with LPLR-911 and LPLR-911HILO only. (minimum order qty 50)	9.53
GS-07F-5525R	334290L	LENEL	LP-PW	Proximity Wafer, 1 inch diameter, adhesive backing, with laser etched card number, 26 bit default format, others available, (minimum order qty 50)	2.52
GS-07F-5525R	334290L	LENEL	LP-WS	Windshield Tag High Frequency, for use with LPLR-911 and LPLR-911HILO only. adhesive mount (minimum order qty 50)	9.53
GS-07F-5525R	334290L	LENEL	1430-MGGMN	HID FlexSmart® MIFARE Contactless Smart Card - Utilizes MIFARE 13.56 MHz Internal Smart Chip, Standard S50, 1 K Memory with 16 Sectors - this card is programmed (must specify programming information at the time of order), plain white front, plain white back, sequential matching internal/external number and no slot punch minimum card order 100)	2.60
GS-07F-5525R	334290L	LENEL	1430-NGGNN	HID FlexSmart® MIFARE Contactless Smart Card - Utilizes MIFARE 13.56 MHz Internal Smart Chip, Standard S50, 1 KByte Memory with 16 Sectors - this card is unprogrammed, plain white front, plain white back, no slot punch. (minimum card order 100)	2.60
GS-07F-5525R	334290L	LENEL	1431-BG1MNN	HID FlexSmart® Proximity & MIFARE Contactless Smart Card w/mag - Utilizes MIFARE 13.56 MHz Internal Smart Chip, Standard S50, 1 K Memory with 16 Sectors, and 125kHz "Prox by HID"- this card is programmed (must specify programming information at the time of order), plain white front, plain white back with magnetic stripe, sequential matching internal/external number and no slot punch (minimum card order 100)	5.74
GS-07F-5525R	334290L	LENEL	1431-BGGMNN	HID FlexSmart® Proximity & MIFARE Contactless Smart Card - Utilizes MIFARE 13.56 MHz Internal Smart Chip, Standard S50, 1 K Memory with 16 Sectors, and 125kHz "Prox by HID" - this card is programmed (must specify programming information at the time of order), plain white front, plain white back, sequential matching internal/external number and no slot punch (minimum card order 100)	4.87

GS-07F-5525R	334290L	LENEL	1440-NGGNN	HID FlexSmart® MIFARE Contactless Smart Card - Utilizes MIFARE 13.56 MHz Internal Smart Chip, Standard S50, 4KByte Memory with 40 Sectors - this card is unprogrammed, plain white front, plain white back, no slot punch. minimum card order 100)	5.06
GS-07F-5525R	334290L	LENEL	1441-LGGMNN	MIFARE Contactless Smart Card, 4K bytes , 13.56 MHz & HID Proximity 125kHz , direct printable, ISO standard dimensions, non-programmed MIFARE. minimum card order 100)	7.45
GS-07F-5525R	334290L	LENEL	2000NG1NN	iCLASS Contactless Smart Card, 2K bits with 2 application areas, 13.56 MHz, direct printable, ISO standard dimensions, with Magnetic stripe, non-programmed, no external card numbering	4.16
GS-07F-5525R	334290L	LENEL	2000NGGNN	iCLASS Contactless Smart Card, 2K bits with 2 application areas, 13.56 MHz, direct printable, ISO standard dimensions, non-programmed, no external card numbering	3.37
GS-07F-5525R	334290L	LENEL	2001NG1NN	iCLASS Contactless Smart Card, 16K bits that can be configured by OnGuard for either 2 or 16 application areas, 13.56 MHz, direct printable, ISO standard dimensions, with Magnetic stripe, non-programmed, no external card numbering	6.88
GS-07F-5525R	334290L	LENEL	2001NGGNN	iCLASS Contactless Smart Card, 16K bits that can be configured by OnGuard for either 2 or 16 application areas, 13.56 MHz, direct printable, ISO standard dimensions, non-programmed, no external card numbering. Direct replacement for 2002NGGNN.	6.09
GS-07F-5525R	334290L	LENEL	2002PGGNN	iCLASS Contactless Smart Card, 16K bits with 16 application areas, 13.56 MHz, direct printable, ISO standard dimensions, programmed, no external card numbering	6.09
GS-07F-5525R	334290L	LENEL	2020AG1NNM	iCLASS Contactless Smart Card, 2K bits with 2 application areas, 13.56 MHz & HID Proximity 125kHz , direct printable, ISO standard dimensions, with magnetic stripe, non- programmed iCLASS, programmed proximity with external card numbering matching HID proximity	8.03

Contract #	SIN Number	Manufacturer	Part Number	Description	NET GSA PRICE
GS-07F-5525R	334290L	LENEL	2020AGGNNM	iCLASS Contactless Smart Card, 2K bits with 2 application areas, 13.56 MHz & HID Proximity 125kHz , direct printable, ISO standard dimensions, non-programmed iCLASS, programmed proximity with external card numbering matching HID proximity	7.25
GS-07F-5525R	334290L	LENEL	2021AG1NNM	iCLASS Contactless Smart Card, 16K bits that can be configured by OnGuard for either 2 or 16 application areas, 13.56 MHz & HID Proximity 125kHz , direct printable, ISO standard dimensions, with magnetic stripe, non-programmed iCLASS, programmed proximity with external card numbering matching HID proximity	9.35
GS-07F-5525R	334290L	LENEL	2021AGGNNM	iCLASS Contactless Smart Card, 16K bits with 2 application areas, 13.56 MHz & HID Proximity 125kHz , direct printable, ISO standard dimensions, non-programmed iCLASS, programmed proximity with external card numbering matching HID proximity	8.55
GS-07F-5525R	334290L	LENEL	2022AGGNNM	iCLASS Contactless Smart Card, 16K bits with 16 application areas, 13.56 MHz & HID Proximity 125kHz , direct printable, ISO standard dimensions, non-programmed iCLASS, programmed proximity with external card numbering matching HID proximity	8.55
GS-07F-5525R	334290L	LENEL	2080PGSNV	iCLASS Clamshell Contactless Smart Card, 2k bit with 2 application areas, configured, programmed, Gloss plain white PVC front, Std HID Logo base, No external Numbering, Vertical Slot punch	2.24
GS-07F-5525R	334290L	LENEL	3110-2305	Dorado Model 230 Reader, Black, universal combination reader formats include magnetic stripe (ABA & EMPI) and proximity (HID, Proxi 10 & EMPI)	281.65
GS-07F-5525R	334290L	LENEL	5365-EGH00	Hazardous Location MiniProx Reader, 5-16 VDC, terminal strip	337.16
GS-07F-5525R	334290L	LENEL	6121BKT0000PRGL	iCLASS RW400 READ/WRITE Card Programmer Lenel contactless iCLASS smart card writer, supports writing any iCLASS format in OnGuard to a non-configured, non-programmed iCLASS card. RS-232 Output, US/EU/Asian back box sizes, read range 1 to 4.5 inches, Requires 100 to 350 mA @12VDC (artwork code L110317	224.32
GS-07F-5525R	334290L	LENEL	LNL-2005W-BE	Magnetic Card Access Reader – 12 VDC, track 2, weatherized, one-million pass extended wear read head, Beige (UL Approved)	134.72

Contract #	SIN Number	Manufacturer	Part Number	Description	NET GSA PRICE
GS-07F-5525R	334290L	LENEL	LNL-2010W-BE	Magnetic Card Access Reader – 12 VDC, track 2, weatherized, one-million pass extended wear read head, Beige(UL Approved)	185.07
GS-07F-5525R	334290L	LENEL	LNL-2010W-OT	Magnetic Card Access Reader w/tamper – 12 VDC, track 2, weatherized, one-million pass extended wear read head, Black (UL Approved)	191.87
GS-07F-5525R	334290L	LENEL	LNL-2010W-OT-BE	Magnetic Card Access Reader w/tamper – 12 VDC, track 2, weatherized, one-million pass extended wear read head, Beige (UL Approved)	191.87
GS-07F-5525R	334290L	LENEL	LNL-5121-HSB	USB Contact/Contactless Reader used to import PIV compliant credentials and other contact smart cards. Also includes Contactless smart card interface for importing MIFARE/iCLASS Serial Numbers, includes Heavy Standing Base.	95.26
GS-07F-5525R	334290L	LENEL	LNL-5125-HSB	USB Contact/Prox Reader used to import PIV compliant credentials and other contact smart cards. Also includes 125KHz prox card interface for importing HID Prox Numbers, includes Heavy Standing Base.	95.26
GS-07F-5525R	334290L	LENEL	LNL-7410	Clamshell HID Prox Compatible, preprogrammed (minimum order qty 100)	2.00
GS-07F-5525R	334290L	LENEL	LNL-7510	ISO Card HID Prox Compatible, preprogrammed (minimum order qty 100)	3.25
GS-07F-5525R	334290L	LENEL	LNL-9551M1	MIFARE 1 Kbyte/8Kbit 14443 memory card with magnetic stripe, direct printable, non programmed, (100 card minimum order) two year warranty	3.17
GS-07F-5525R	334290L	LENEL	LNL-9558M1	MIFARE 4 Kbyte/32Kbit 14443 memory card with magnetic stripe, direct printable, non programmed, (100 card minimum order) two year warranty	4.90
GS-07F-5525R	334290L	LENEL	LNL-9951	ISO Card Combo 125KHz/13.56MHz - HID Prox with MIFARE 1K, preprogrammed Prox, unprogrammed MIFARE (minimum order qty 100)	4.89
GS-07F-5525R	334290L	LENEL	LNL-9958	ISO Card Combo 125KHz/13.56MHz - HID Prox with MIFARE 4K, preprogrammed Prox, unprogrammed MIFARE (minimum order qty 100)	5.78
GS-07F-5525R	334290L	LENEL	LNL-DEMO-UI-HOI	Lenel Access Hardware Demo Case includes a universal power supply [100-240V, 50-60Hz], [1] LNL-2220, [1] LNL-1300, [1] RWKL550 LCD display reader, [1] LNL-XF1050 OpenProx reader, [1] IE800-8045-3020 MIFARE sector reader, [4] inputs, [4] output LED, auxiliary RS-485 connection for additional device kits, [3] Door Contact, [3] REX, network cable, sample cards and soft sided travel case	2,442.64

Contract #	SIN Number	Manufacturer	Part Number	Description	NET GSA PRICE
GS-07F-5525R	334290L	LENEL	LP-GR-1KM	1K MIFARE Cards with a 125 Proximity insert, graphic quality on both sides, ISO Compliant (minimum order qty 2500) 10 week lead time	5.54
GS-07F-5525R	334290L	LENEL	LP-GR-4KM	4K MIFARE Cards with a 125 Proximity insert, graphic quality on both sides, ISO Compliant (minimum order qty 2500) 10 week lead time	6.16
GS-07F-5525R	334290L	LENEL	LPLR-2000BU	LenelProx Long Range UHF Reader - Wiegand output, passive tag reader with directional 9 to 11 foot Read Range, 5 to 15 VDC [1.5A to 0.4 A typical], (color Beige only) – Works Only with UHF Tags (1 year warranty). INSTALLER KIT LPLR-2000KIT00 required for set up and installation (not RoHS Compliant)	1,569.01
GS-07F-5525R	334290L	LENEL	LPLR-2000HILOMABU	LenelProx Long Range UHF Reader with dual antennas – Same as LPLR-2000BU, but includes 2nd remote antenna and 4ft Coax cable to provide expanded read range in 1 axis only, to allow greater range of tag locations in either the horizontal OR vertical axis – Works Only with UHF Tags (1 year warranty). INSTALLER KIT LPLR-2000KIT00 required for set up and installation (not RoHS Compliant)	2,282.06
GS-07F-5525R	334290L	LENEL	LPMM-6800GRMP	LenelProx/HID Prox Mullion Mount Reader, Wiegand and RS232 (simultaneous) output, 6 to 8 inch Read Range, Metal Compensated, 5-12 VDC [65 to 85 mA typical], Mullion Width, Indoor/Outdoor, (color Gray)	119.75
GS-07F-5525R	334290L	LENEL	LPMR-1824GRMP	LenelProx/HID Prox Mid Range Reader, Wiegand and RS232 (simultaneous) output, 18 to 24 inch Read Range, 5-12 VDC [250 to 650 mA typical] Dimensions only 8"x8"x1", Indoor/Outdoor, (color Gray only)	244.94
GS-07F-5525R	334290L	LENEL	LPMR-1824MCGMP	LenelProx/HID Prox Mid Range Reader Metal Compensated, Wiegand and RS232 (simultaneous) output, 14 to 16 inch Read Range, 5-12 VDC [250 to 650 mA typical] Dimensions only 8"x8"x1", Indoor/Outdoor, (color Gray only)	306.18
GS-07F-5525R	334290L	LENEL	LPSP-6820GRMP	LenelProx/HID Prox Switch Plate Reader, Wiegand and RS232 (simultaneous) output, 6 to 8 inch Read Range, 5-12 VDC [65 to 85 mA typical], Single Gang Box Mount, (color Gray)	119.75
GS-07F-5525R	334290L	LENEL	LPSR-2400GRMP	LenelProx/HID Prox Special Range Reader, Wiegand Output, 4 to 5.5 inch Read Range, Metal Compensated, 5-12 VDC [40 to 70 mA typical], Mullion Width, Indoor/Outdoor, (color Gray)	76.21
GS-07F-5525R	334290L	LENEL	LPUA-612MU	UHF Access Proximity Reader – Works Only with UHF Tags, 6-12in. read range, Midnight Black, RoHS	355.17
